followed her mistress into the house d the two travelers emerging from the ades of the hall entered the brightlyminated dining-room. A fire crackled eerfully on the hearth, and the large partment, with many little tables coved with snow-white cloths and ahing glass, looked quite cosy. The laies, taking off their wraps, seated nemselves by the fire, and presently the landlady drow in front of them a able on which she placed two smoking powls of broth. The bright light of the fire threw its

heerful glare on the countenance of he tell lady, and showed her to posess such rare and stately beauty that the worthy landlady, on returning to the kitchen, proclaimed to her satelites that she never before had seen so neenly a personage " Cest une veritale reine (she is a perfect queen). I'll varrant she's some fine court marchi ness on her way over the frontier, aid she, "and, poor soul, I would be he last to prevent her flight.

Indeed the lady justified these en-comiums. Her figure was graceful and commanding, her features regular, her eyes bright and vivacious. Her hair, n which still lingered traces of powder, was drawn high up over her ample foreead, whilst one heavy curl hung down on her shoulder. Her complexion was singularly brilliant, and, varying constantly on the least emotion, gave the lie to those of her enemies who declared she used paint. The only defect that could be possibly found with this otherwise perfect face was that the lower lip, slightly too thick, protruded a little beyoud the upper one, as is frequently observed in portraits of the sovereigns

f the house of Austria. Her costume was simple, consisting of a gray petticoat and a flowered chintz the spartment by two guards. His verskirt, made in the fashion recently popular and styled "Dolly Varden, Her attendant, whom she called Sasanna, was a pretty and unpretending young woman belonging to the vivacions class of French serving-maids

seated, he drew from his pocket a letter, and fixing his eyes with vivid interest on the tall lady, made a mental comthat of some one described in the docment he held in his hand. "What is your name, citoyenne?"

asked he suddenly in a tone of au-"May I first ask, sir, who it is I shall have the honor of answering when I do give my name?" returned the lady, your gracious pardon." who, although she had become exceedingly p le, retained her sclf-possession in a remarkable manner, for it was no those days.

"I am the Mayor of Jougne." "In that case, M. le Maire, I am Madame de Pryne." "Have you no papers about you-no passrort?"

"Mon Dieu! Yes-no; that is, of swered the lady. "We are only going to Besaucon. This is my maid, Susanne; traveling in France."

box. Very well, Madame de Pryne, allow me to see this passport.' "Willingly; call in your men, and let them bring my largest trunk; all my papers are in it. opened.

There is no doubt it is a center of plutonic force, and Figuier, the eminent French physicist, has gone so far as to suppose that its submarine furnace partly accounts for the super-heated waters which emerge still continue to be my squire as tragethrough the Florida pass as the great Atlantic current.

It is not impossible there may be a

connection between the volcanic center and the foundations of the Alleghany swept down the staircase to the car- peaks, from one of which, in Western North Carolina, the present eruption is reported. The Alleghanies form an apparently isolated barrier, or rather series of isolated upheavals, extending from Alabama to Maine, with a mean altitude of two thousand feet. The two brothers, the Rogerses, so eminent as American geologists, who most fully explored them, first pointed out the extraordinary fact that they have no central axis, but consist of a series of convex and concave flexures, giving them he appearance of so many colossa! inrenchments. Mount Mitchell, the offiest, and Mount Washington, next in altitude, guard either flank of the series. The western slope of the whole range, running from the Genesee country of New York to the Mussel shoals of the Tennessee river, are skirted by a deep underlying bed of limestone. This latter fact is signifi- the latter should be extended; also recent writer. It appears that in any her the knowledge of the manner in which he proposed to conduct her back gone back to bed thanking God for the cant, and may give a clew to the origin provision should be made for conlarge body of people within the same pure, innecent and cooling beverage, of the volcanic action in North Carolins. If, as Sir Charles Lyell, the high- tion recently made to the capitol a better average of health is maintained for ever touching the accursed whisky. est geological authority, asserts, volcaling the accursed whisky. est geological authority asserts, volcaling the accursed whisky. est geological authority asserts, volcaling the accursed whisky. have made vows and promises and bowels of the earth, and not to an broken them within a day. But if you eternal sea of fire, it is not inconceivable how such chemical action has culminated in the present flery disturbance in North Carolina, but we anxiousor fire, and then try a bucketful at the pump in the night. You want a gourd full—you'll feel like the bucket ain't conclusion conclusion.
